

Sue Glander

Sue Glander has been volunteering in HFHGC's office since 2007, and has completed **over 1,000 hours** of service for our affiliate! If you have been in the Habitat office on a Tuesday or Thursday in the past three years, you would recognize Sue's smiling face. No matter what project Sue is working on, she always keeps a positive attitude and has developed close friendships with the Habitat staff and volunteers. Habitat has come to rely on Sue for her knowledge of Habitat and her great organizational skills...she is the one who covers for our Administrative Assistant when he is out of the office!

In addition to volunteering in Habitat's office twice a week, Sue loves to follow sports (especially football...Go Bucks)! Sue has a tremendous love for reading, and is also very skilled at knitting.

Habitat is so appreciative of Sue's commitment and organizational talents, and also of her caring nature. Sue is always willing to step in and donate her time, ensuring that the Habitat office is always in good hands. Thank you, Sue, for your time, your humor, and all that you bring to the Habitat family!
